

ITT Standard Receives ASME Nuclear Accreditation

BUFFALO, N.Y., May 1st, 2010 - ITT Standard, a leading manufacturer of heat transfer equipment, announced today that it has obtained nuclear accreditation under Section III of the ASME Boiler and Pressure Vessel Code, a code that sets technical standards for the design and construction of items in nuclear power plants. ITT has been awarded an ASME Certificate of Authorization as a Manufacturer of Section III, Division 1 Pressure Vessels, Class 2 & 3. [ASME Certificate](#)

ITT has a long history of providing both ASME Section III and Section VIII heat exchangers for various power generation applications, including nuclear. In fact, ITT has been supplying heat transfer solutions to the global power industry for over 90 years. ITT offers both standard designs and custom shell and tube heat exchangers as well as plate type and air cooled exchangers.

About ASME

ASME helps the global engineering community develop solutions to real world challenges. Founded in 1880 as the American Society of Mechanical Engineers, ASME is a not-for-profit professional organization that enables collaboration, knowledge sharing and skill development across all engineering disciplines, while promoting the vital role of the engineer in society. ASME codes and standards, publications, conferences, continuing education and professional development programs provide a foundation for advancing technical knowledge and a safer world. www.asme.org

About ITT Standard

ITT Standard is a unit of ITT Corporation and a leading designer and manufacturer of a broad range of heat transfer products including: shell and tube, brazed plate, gasketed plate and air cooled exchangers serving a wide range of industrial applications. www.ittstandard.com

About ITT Corporation

ITT Corporation is a high-technology engineering and manufacturing company operating on all seven continents in three vital markets: water and fluids management, global defense and security, and motion and flow control. With a heritage of innovation, ITT partners with its customers to deliver extraordinary solutions that create more livable environments, provide protection and safety and connect our world. Headquartered in White Plains, N.Y., the company generated 2009 revenue of \$10.9 billion. www.itt.com
